Unit 2

The Power of Machines

Learning Outcomes

Reading
- Read short texts, articles, and conversations about machines, technology, and their historical context in Egypt.
- Identify key details and understand idioms.

Language
- Use and apply reported speech for statements, commands, and requests.

Listening
- Understand and extract key information from an audio conversation, specifically a technical support call.

Writing
- Write an argumentative essay with a clear opinion, supporting reasons, and a counter argument.

Speaking
- Talk about machines and their impact, present an invented machine.
- Give and follow instructions.

Egypt, a land rich in ancient wonders, has a long and fascinating history with machines. From the very basic tools of the early dynasties(1) to the sophisticated(2) devices of today, machines have played an important role in shaping the nation.

In ancient times, Egyptians relied heavily on simple machines like levers and ramps to build their monumental pyramids and temples. Historians believe that these early innovations laid the groundwork(3) for future engineering marvels. One expert noted, "The Egyptians were masters of mechanics long before the modern era."

During the Industrial Revolution, Egypt began importing advanced machinery from Europe. Cotton gins(4) and steam engines revolutionized(5) agriculture and transportation. However, not all changes were smooth—some traditional crafts disappeared as machines took over.

Today, Egypt continues to adopt(6) modern technology, from computerized factories to renewable energy systems. While some fear that machines may replace human labor, others argue they enhance productivity. As one engineer remarked, "Machines are tools, not replacements for human skills."

Now, Egypt is also working with advanced technology like artificial intelligence and robots. Government initiatives(7) and private-sector partnerships are driving forward projects in automation(8) and smart infrastructure(9). Yet, even as the country charges full steam ahead(10) into the digital age, it remains deeply connected to its past—museums now use 3D scanning to preserve ancient artifacts(11), blending old and new. As one historian said, "Egypt is strong because it respects the past and looks to the future." By mixing old and new, Egypt shows how machines can connect history with modern life.

(1) سلالات حاكمة
(2) متطورة
(3) وضعت الأسس

(6) يتبنى
(7) مبادرات
(8) تشغيل آلي
(9) بنية تحتية
(10) تدفع بكل قوتها
(11) مصنوعات يدوية

Choose the correct answer from a, b, c, or d:

1. What simple machines did ancient Egyptians use?

a) Computers and robots.
b) Levers and ramps.
c) Steam engines and cotton gins.
d) 3D scanners and AI systems.

2. How did the Industrial Revolution change Egypt?

a) It stopped all the farming and building operations completely.
b) It forced all the local workers to avoid using machinery.
c) It brought advanced European machines for farming and transport.
d) It destroyed all the ancient temples and monumental pyramids.

3. Some people worry about modern machines as they ..... .

a) think machines are too expensive
b) believe machines are not strong enough
c) fear machines might take over human jobs
d) don't like how machines look

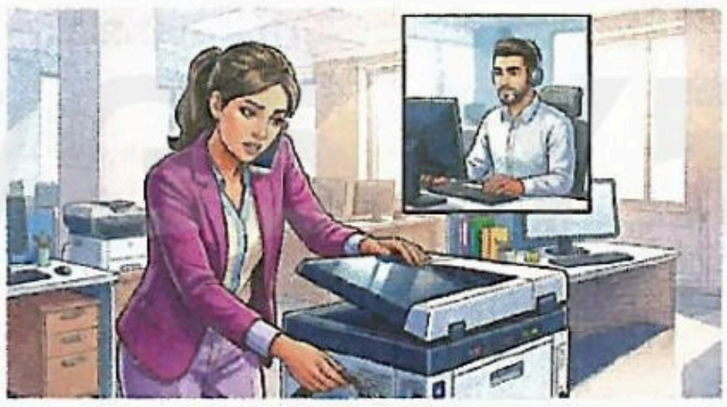

4. Egypt is blending old and new technology today by ..... .

a) removing all ancient artifacts from museums
b) using 3D scanning to preserve ancient artifacts
c) stopping all use of modern machines
d) rebuilding the pyramids with robots

Rami : Tech Help Support. This is Rami speaking. How can I assist you today?

Rania : Hi Rami. This is Rania from Apex Marketing. Our printer isn't working properly, and we have an important presentation(1) tomorrow.

Rami : I understand your urgency(2), Rania. Let me help you troubleshoot this. First, please check if the printer is properly connected to your computer.

Rania : Okay, yes, all the cables(3) are secure.

Rami : Great. Now I need you to open the printer settings(4) on your computer. Can you see the printer listed there?

Rania : Yes, but it shows as offline(5).

Rami : Perfect. That's the issue. Please right-click(6) on the printer icon and select 'Use Printer Online'. Then try printing a test page.

Rania : Wow, it's working now. Thank you so much, Rami.

Rami : You're welcome. Now, to prevent this from happening again, I recommend restarting both your computer and printer once a week. Also, please don't turn off the printer while it's processing jobs.

Rania : Got it. Should I do anything else?

Rami : I suggest keeping the printer drivers(7) updated. Our website has the latest versions(8). Is there anything else I can help you with today?

Rania : No, that's perfect. Thanks again.

Rami : My pleasure, Rania. Have a great day.

Reported Speech (Direct & Indirect Speech)
الكلام المنقول (المباشر وغير المباشر)

- **Statements** الجمل الخبرية
- **Commands & Requests** الجمل الأمرية

الكلام غير المباشر هو نقل كلام شخص فى وقت غير وقت الكلام ومكان غير المكان، وهذا يستلزم تغيير الأزمنة والضمائر والظروف الزمنية وظروف المكان.

وفى هذا الجزء سنتناول الجمل الخبرية.

1 Reported statements الجمل الخبرية

Direct مباشر	Indirect غير مباشر
Omar said, "I am ill today".	Omar said that he was ill that day.

عندما قال عمر هذا الكلام كان فى يوم غير وقت نقل الكلام عنه فلزم تغيير الزمن من «يكون» إلى «كان» وظرف الزمان من «اليوم» إلى «ذلك اليوم».

ما يميز الجمل الخبرية فى الكلام غير المباشر:

1. يكون فعل القول فى الجملة الخبرية said أو told وبعد said لا نعرف المتحدث إليه (المُخاطب) ولكن بعد told نعرف المتحدث إليه؛ أى يأتى بعد told المفعول به سواء أكان اسمًا أو ضمير مفعول مثل me/him/her/us/them.
2. لا نجد علامات اقتباس فى الجملة المحولة ونربط الجملة الخبرية بـ that ويمكن حذفها.
3. بعد that دائمًا جملة كاملة بدايتها الفاعل (اسم أو ضمير) والضمائر تكون موافقة لسياق الجملة.
4. إذا كان فعل القول (said/ told) ماضيًا لا يوجد مضارع أو مستقبل بعده إلا فى الحالات الخاصة لأن الكلام قد تغير زمنه فنعود بالزمن درجة للوراء كالآتى:

Direct		Indirect	
write / writes	المضارع البسيط	wrote	الماضى البسيط
wrote	الماضى البسيط	had written	الماضى التام
is / are writing	المضارع المستمر	was / were writing	الماضى المستمر
has / have written	المضارع التام	had written	الماضى التام
has / have been writing	المضارع التام المستمر	had been writing	الماضى التام المستمر
was / were writing	الماضى المستمر	had been writing	الماضى التام المستمر
will write	الأفعال الناقصة	would write	الأفعال الناقصة فى الماضى
shall write		should (asking for advice) write	
may write		might write	
can write		could write	
will have to write		would have to write	

5. ظروف الزمان والمكان وضمائر الإشارة تكون موافقة للكلام المنقول أيضًا وهى كالتالى:

Direct	Indirect	Direct	Indirect	Direct	Indirect
now	then	today	that day	tomorrow morning	the next morning
this	that	tonight	that night	next week/ Friday	the following week /Friday
these	those	this afternoon	that afternoon	yesterday	the day before/ the previous day
here	there	tomorrow	the next day	last week	the week before/ the previous week
				(two days) ago	(two days) before/ earlier

- Leila said, "I like tennis and I played a good game this morning".
- Leila said that she liked tennis and she had played a good game that morning.

Language Checkpoint 4

Choose the correct answer from a, b, c, or d:

1. Adel ..... he'd given up smoking the week before.
   a) said b) wondered c) told d) inquired
2. Sara told me that she ..... a job interview the previous day.
   a) had b) will have c) had had d) has
3. He told me that he ..... me to repair my car the following day.
   a) helped b) would help c) had helped d) will help
4. Nadia said that she ..... a test the following week.
   a) took b) takes c) will take d) was taking
5. Omar said his father had given up smoking ..... .
   a) then b) the week before c) yesterday d) now

لاحظ

1 لا يتغير الزمن فى الجملة المحولة لغير المباشر فى الحالات الآتية:

(أ) الحقائق (facts).

Direct	Indirect
The teacher said to us, "The Nile is the longest river in the world."	The teacher told us that the Nile is the longest river in the world.

(ب) إذا كان الكلام منقولًا حالًا أى به كلمات مثل (just now/a moment ago).

Direct	Indirect
My father said just now, "I am going to Alex tomorrow."	My father said just now that he is going to Alex tomorrow.

(جـ) إذا كان فعل القول فى أحد أزمنة المضارع أو المستقبل.

Direct	Indirect
Ahmed says/has said, "I am ready for the exam."	Ahmed says/has said that he is ready for the exam.

(د) الماضى التام والماضى من modal verbs و had better/ used to يبقيان كما هما.

Direct	Indirect
He said, "They could see the mountain after they had reached the top of the tower."	He said that they could see the mountain after they had reached the top of the tower.

2 يمكن استخدام الأفعال الآتية بدلًا من said:

وافق agreed/ أكد asserted/ أوضح indicated/ ذكر mentioned/ اشتكى complained/ ادعى claimed/ وعد promised/ صاح shouted/ أوضح explained/ بلغ/ نقل الخبر reported

Direct	Indirect
The man said, "The woman was killed yesterday."	The man reported that the woman had been killed the day before.

3 يمكن استخدام الأفعال الآتية بدلًا من said ويأتى بعدها v + ing:

Direct	Indirect
He said, "We could go to the movies or the theater."	He suggested going to the movies or the theater.

https://t.me/GS_Y5

4 يمكن تحويل الجملة بعد deny/ admit باستخدام that وبعدها جملة أو استخدام v + ing:

Direct	Indirect
He said, "I didn't steal the bag."	He denied stealing the bag. He denied that he had stolen the bag.

لاحظ أن الفعل يأتى مثبتًا بعد deny لأنها تحمل معنى النفى.

5 يمكن استخدام الأفعال الآتية بدلاً من said ويأتى بعدها that وجملة أو to + inf.:

promise/offer/agree/threaten/refuse/remind/decide/warn/ask/advise/allow + (to + inf.)

Direct	Indirect
He said, "I'll help you with your homework."	He promised to help me with my homework. He promised that he would help me with my homework.

6 الفعل must له ثلاثة احتمالات عند التحويل من المباشر إلى غير المباشر:

Nowadays, machines are a big part of our daily routines. From the moment we wake up, they influence what we do. The alarm clock rings, the kettle boils, and the bus or metro takes us to school or work — all powered by machines. It's hard to imagine life without them.

At home, we depend on household appliances(1) like washing machines, microwaves, and vacuum cleaners. These devices save time and make chores(2) easier. A recent study reported that most people use over five machines every single day. Even our free time is shaped by technology — smartphones, laptops, and smart TVs that keep us entertained and connected with friends and family.

In the workplace, machines help us work faster and more accurately. Office workers use computers to write emails, prepare documents, and join online meetings. In factories, robots build cars, pack products, and carry heavy items. One factory manager said, "Our production has doubled since we started using automated(3) systems."

Our health is also monitored by machines. Smartwatches track(4) our heart rate, steps, and sleep quality. Doctors use advanced scanners and machines to detect illnesses early and plan treatments.

However, some people worry that we rely too much on machines. They fear that if technology fails, our lives could come to a standstill(5). As one teacher explained, "Students struggle to write without spellcheck or grammar tools."

While machines bring comfort, speed, and efficiency(6), it's important to remember that we should control them — not the other way around. Life with machines is easier, but we must stay in charge of our choices and skills. After all, technology should serve us, not rule us.

Choose the correct answer from a, b, c, or d:

1. Which machine is NOT mentioned in the home section?

The role of machines

Machines play an important role in our daily lives. They save time, reduce human effort, and make many tasks easier. At the hospital, for example, doctors use machines to monitor[1] patients' hearts and give accurate diagnoses[2]. Last week, a doctor said that machines helped him detect[3] illnesses more quickly. Nurses also mentioned that machines made their work smoother and reduced mistakes. In factories, machines are always running. They cut, assemble[4], and pack products at a speed no human can match. A factory manager explained that machines could work all day without getting tired. However, he also warned that humans should check the machines regularly. At school, students learned that machines are both helpful and dangerous. A teacher told them that machines could save lives but might also cause accidents if not used carefully. Another student added that machines were changing the future of jobs. Although machines are powerful, they still need human control. People say that machines cannot replace creativity[5] or compassion[6].

Is Online Learning Better Than Traditional Classrooms?

Introduction	Education has changed due to technology. Some prefer classrooms, but others like online learning. **In my opinion,** online learning is better because it offers flexibility.	المقدمة: عرض الموضوع وتوضيح رأيك الصريح (الأطروحة).
Body Paragraphs	**Firstly,** online learning allows students to study at their own pace. **For instance**, they can watch recorded lectures. Furthermore, it saves a lot of time and money.	فقرة التأييد: ذكر الأسباب والأدلة التى تدعم وجهة نظرك.
	On the other hand, critics argue that online learning lacks social contact. **They claim that** students need a physical classroom to stay focused and learn better.	الرأى المعارض: ذكر وجهة النظر الأخرى التى تختلف معك.
	However, modern platforms now include live chats and group projects. **Therefore,** the lack of social contact is no longer a major problem for most students.	الرد على الرأى المعارض وإثبات ضعفه بالأدلة.
Conclusion	**In conclusion**, while classrooms have benefits, digital education is superior. **To sum up**, technology has made learning more convenient for everyone.	الخاتمة: تلخيص سريع لأهم النقاط وإعادة التأكيد على رأيك.

(A) Reading Comprehension

قاموس بالكلمات الجديدة
فى قطع الفهم نهاية الكتاب.

1 Read the following passage, then answer the questions:

There are many kinds of graphs that can be used to show information. Another name for information is data. Graphs make reports and scientific research more powerful. They let us see with our eyes what the numbers actually mean. They bring the numbers to life so that we can analyze them. We can look at the results and understand them better. You choose a graph depending on what you want to show. Certain kinds of graphs are better than others to make information stand out. When you have data to include in a report or presentation, choose the one that fits your data best.

A pie chart is good for showing a part of a whole. A line graph is an excellent choice if you want to describe how something changes over time. It is also good for showing big differences. You can use it to compare the highest and lowest numbers or the shortest and tallest plants. Data are represented with pictures or symbols on a pictograph. Each picture or symbol can represent whatever number of items you choose. A colorful bar graph can show changes over time. You can also use it to make comparisons between two or more things. A Venn diagram uses two overlapping circles. They are perfect for sorting information. You can use them to sort plants, for example: plants with green leaves go on the left. Plants with flowers go on the right. Plants with both go in the middle where the circles overlap. Choosing the right graph can help you create a better project. Your data will be displayed clearly for others to understand.

Choose the correct answer from a, b, c, or d:

1. Why should you use graphs to display your data?

a) To calculate numbers.
b) To make reports more powerful.
c) To do tests easily.
d) To keep reports brief.

2. How many kinds of graphs are mentioned in the passage?

a) Two.
b) Three.
c) Four.
d) Five.

3. According to the passage, what decides which kind of graph to use?

a) The kind of data you show.
b) The people who read the graph.
c) The colors you use.
d) The number of words that you write.

4. The underlined word "it" refers to .....

a) a pie chart
b) data
c) a line graph
d) information

5. Give a suitable title to the passage.

a) The cons of graphs.
b) The importance of graphs.
c) Graphs and numbers.
d) Showing differences with graphs.

6. The antonym of the word "displayed" is ".....".

a) shown
b) presented
c) revealed
d) hidden

7. "They bring the numbers to life". This means ..... .

a) they make the numbers increase over time
b) they give the numbers the right color
c) they make the numbers easy to understand
d) they help us count the numbers

8. Which one of the following isn't true?

a) The same kind of graphs is used to suit all the data we need.
b) Graphs make reports and scientific research more powerful.
c) Graphs help us analyze the information easily.
d) There are many kinds of graphs.

2 Read the following passage, then answer the questions:

The timeless appeal of Egypt's antiquities transcends mere curiosity; it is a global phenomenon that anchors the nation's tourism industry. While many countries rely on modern resorts or natural landscapes, Egypt's competitive edge lies in its "tangible history." The Great Pyramids and the temples of Luxor are not just stone structures; they are symbols of human ingenuity that spark a deep emotional connection with people from diverse cultures. This "historical magnetism" draws millions of visitors who seek to witness the origins of civilization firsthand.

However, the importance of these monuments extends beyond their physical presence. They act as a catalyst for economic growth and international diplomacy. A single archaeological discovery can dominate global headlines, serving as an organic marketing tool that no paid advertisement could replicate. For instance, the fascination with "Egyptology" has created a specialized niche of cultural tourists who are often more invested in the country's heritage than the average traveler. These visitors contribute significantly to the local economy, supporting everything from traditional crafts to high-end hospitality.

The real challenge, however, lies in balancing accessibility with conservation. To maintain its status as a top global destination, Egypt must ensure that its treasures are protected from the very crowds they attract. The integration of technology in museums, such as virtual reality and digital storytelling, is a strategic move to enhance the tourist experience without risking the integrity of the artifacts. Ultimately, Egypt's heritage is not just a remnant of the past, but a living bridge that continues to invite the world to explore the depths of human history.

Choose the correct answer from a, b, c, or d:

1. According to the first paragraph, what are the Great Pyramids and Luxor temples symbols of?

a) Modern Egyptian architecture.
b) Human ingenuity and creativity.
c) Natural landscapes and resorts.
d) International sports and games.

2. What do museums use to enhance the tourist experience without damaging artifacts?

a) Paid global advertisements.
b) Traditional handicraft tools.
c) Virtual reality and technology.
d) Moving artifacts to other cities.

3. What can be inferred about "cultural tourists" compared to "average travelers"?

a) They prefer staying in cheap, low-end hotels.
b) They are mainly interested in sunny beaches.
c) They have a deeper commitment to heritage.
d) They rarely spend money on local services.

4. Why is a new archaeological discovery described as an "organic marketing tool"?

a) Because it costs much more money to find.
b) Because it gains free global media attention.
c) Because it is only seen by local citizens.
d) Because it replaces the need for any museums.

5. What is the "real challenge" mentioned by the author regarding Egypt's tourism?

a) Keeping monuments safe from large crowds.
b) Finding enough stones to repair the pyramids.
c) Convincing people that history is important.
d) Lowering the prices of museum entry tickets.

6. What does the author mean by the term "tangible history" in the first paragraph?

a) History that can only be read in books.
b) A type of history that is easily forgotten.
c) Physical remains that people can touch and see.
d) Modern stories about ancient Egyptian kings.

7. How does the fascination with "Egyptology" impact the local economy?

a) It makes people avoid traditional crafts.
b) It decreases the need for hospitality.
c) It supports crafts and hospitality.
d) It limits tourism to scientific research.

8. Which of the following best describes the main idea of the entire text?

a) The technical difficulty of restoring statues.
b) The history of the construction of pyramids.
c) The difference between ancient and modern art.
d) The strategic value of heritage in tourism.

Read the following passage, then answer the questions:

My dad made the decision to go on a camping trip. He read an article in the Sunday paper about camping and how it "brings families together under the canopy of nature." "Overrated," I joked. "What about the canopy of television or the canopy of restaurant food?"

"This will be good for us," Dad said, sliding the magazine across the coffee table. "Let's go next weekend."

I shot a quick look over at my little brother, Alan. He gave me a slow eyebrow raise which meant, "This will probably not go off completely as planned." My smile back said, "But it will surely be fun." Dad decided we should all learn how to canoe. We borrowed two canoes from our friends, hoisted them on the van, and drove for three hours to a secluded lake in Alaska.

Alone in the middle of nowhere, we discovered that we had forgotten the paddles. Alan and I got in a canoe with Dad, and our two younger sisters got in a canoe with Mom. We floated aimlessly around the lake for hours. Then we all jumped in with our life jackets on.

Another time, Dad decided we should all learn how to ski. All of us hate the cold, so we spent the weekend huddled by the fire, drinking hot cocoa in the ski lodge and playing board games. It was great. We had a blast. When I stopped dreaming, Mom was saying, "Sweetheart, wake up. You will be late for the school bus." It was the most wonderful dream I have ever had in my life.

Read the following passage, then answer the questions:

Health care is one of the main pillars of a developed society. It goes beyond treating diseases; it focuses on promoting wellness, preventing illness, and improving the quality of life for all individuals. A strong health care system reflects a nation's values, priorities, and sense of responsibility toward its people.

Today, health care, supported by modern technology, has become more complex and more essential than ever. With the rapid spread of new diseases and global health challenges, such as pandemics and pollution, nations must invest heavily in medical research, public hospitals, and health education. Good health care is not a luxury; it is a human right that should be available to everyone, regardless of income or social class.

To further develop and enhance health care, developed societies are now turning to technology driven solutions. Artificial intelligence, telemedicine, and advanced medical equipment have transformed the way doctors diagnose and treat patients. For example, online medical consultations allow people in remote areas to receive expert advice without traveling long distances.

However, despite all the progress, many people around the world still suffer from poor medical services. Lack of funding and low awareness remain serious problems. Therefore, both governments and individuals must work together. In conclusion, the health of a nation determines its strength and future. Investing in health care is not just about curing the sick—it is about creating a society where every person has the chance to live a healthy, dignified, and productive life.
